CORVET 2019

BECAUSE PASSIONS CREATE OUR LIVES

Without passion, a product has no "soul"

Corvet is not a brand like any other, focused on mass production, where millions of the same items are sold on the market and after just one season, they are useless. No. Our bags, rucksacks and accessories will last you a long time and are designed to be ergonomic and trendy, which means that Corvette rucksacks and bags are not only durable and functional, but also fashionable. Our product lines you probably know from the chain of shops, such as Auchan Polska, Carrefour Polska, Tesco International Clothing Brand, Tesco Polska, Netto Sp. z o.o., Super-Pharm Poland, Rossmann, PoloMarket, Topaz, Stokrotka Sp. z o.o.

With Corvet products we reach not only customers in Poland, but also customers all over Europe. Regardless of the destination, you can be sure that each of the products coming out of our hands is unique.

Backpacks

Whether you're going to school to work, on the road or in the city, wherever you go, you can take your Corvette backpack with you. Thanks to the use of high quality materials and high production techniques, the rucksacks are suitable for all applications: everyday and special. Our products stand out for their functionality, durability and unusual design - it is thanks to the combination of these three features that Corvette rucksacks are so unique.
